

It is with delight that we write this testimonial for Joe Brasslett, and the rest of the Joe Brasslett Construction team. We purchased a "To Be Built" home that Joe was building, and although worried at first, after meeting him and seeing his previous work we instantly felt at ease.

Joe has great attention for detail and always discussed the ideas he had for the home with us, while also listening to what we wanted. We loved being able to see each step of the process, and whenever we had a question Joe would always have an answer.

Joe does fantastic work. He builds quality homes and accepts nothing less than what he would live in himself. We would, without a doubt have Joe build another home for us. We always, and will always recommend him to all our friends and family.
